DIGITAL VOLT/AMMETER (DVAM)

The digital volt/ammeter option incorporates two “Super Bright” high-quality LED Displays. This allows for precision monitoring of both the output voltage and current at the same time. The display is bright enough to be seen at least 20 feet away. Unit in the middle, above is an external model, the other two are built into the chassis.

Digital Meters provide easy operation and monitoring in many installations including

- Solar Arrays
- Marine INstallations
- Industrial Applications
- Portable Maintenance Equipment
- Recreational Vehicles
- Heavy Industrial Equipment
- Mining Equipment
- Telecommunications Units
- Industrial and Manufacturing Sites
